Two Blows, all-out signal.

Twelve blows, repeated once, Military Call.

5-5 No school signal, given at 8.15 A. M., 12.45 or 1.15 P. M.

INSTRUCTIONS TO KEY HOLDERS.

Alarms to be given from the box nearest the location of the fire.

Do not give an alarm for a fire seen at a distance, unless assistance is called for.

To give an alarm, open the door, pull the hook to the bottom of the slot once, and let go. Each box contains a small bell which, if heard before you pull, indicates that an alarm has been previously given, and by listening at the box, you will learn the number of the box from which the alarm was given, but in no case will you pull the hook while the alarm is striking. After giving the alarm, remain at the box, so as to direct the firemen to the fire. Be sure that you lock the box before leaving it.

Citizens are requested to inform themselves where keys to the signal boxes are kept, signs suitably

inscribed being placed over each box giving the requisite information.

First alarm will be given by striking *two* or more rouuds.

Second alarm will be given by repeating the first.

Third alarm will be given by striking *three blows twice* on the gongs and bells.

General alarm will be given by striking *three blows three times.*

THERE are grades and qualities in all sorts of goods. Nowhere is this truth apparent than in the realm of art, especially in art photography. When you get those photos which you are thinking of having made, you want the best that a reasonable amount of money will buy. **Go to PACH'S FAMOUS STUDIO,** Massachusetts Avenue, near Harvard College, Cambridge, and you will be satisfied with the result; because they have a reputation to sustain. No stairs to climb.
